

**Amendments to the Claims:**

*This listing of claims will replace all prior versions, and listings, of claims in the application:*

1 -15. (Cancelled)

16. (New) A composition for treating a skin disorder, the composition comprising:

vanilla extract in an amount in an amount less than 2% by weight of the composition;

quaternary ammonium in an amount from about 0.001% to about 40% by weight of the composition; and

a cation chloride salt in an amount from about 0.001% to about 10% by weight of the composition.

17. (New) The composition of claim 16 wherein the cation chloride salt is ammonium chloride or potassium chloride.

18. (New) The composition of claim 16 wherein the active agents are in a therapeutically effective amount for treating the skin disorder.

19. (New) The composition of claim 16 wherein the active agent includes vanilla extract, vanilla oil, or vanillin selected from natural or synthetic vanilla.

20.(New) The composition of claim 16 wherein the composition is a keratolytic composition, an anti-allergic composition or an anti-inflammatory composition.

21. (New) The composition of claim 16 the composition is adapted to be topically administered in the form of lotion, cream, ointment, emulsion, solution, patch, pad, cleanser, conditioner, gel, soap, sprays, foam or tape.

22. (New) The composition of claim 16 wherein the active agent comprises vanilla extract and oil extracted from flowers, fruit, pods, beans, seeds, vine of species in the orchid family Orchidaceae, vanilla planifolia, or vanilla tahitensis.

23. (New) The composition of claim 16 wherein the skin condition is psoriasis, pityriasis rosea, lichen planus, pityriasis rubra pilaris, dermatitis (eczema), acne, or dandruff.

24. (New) The composition of claim 16 wherein the quaternary ammonium comprising a component selected from the group consisting of benzalkonium chloride, benzethonium chloride, cetalkonium chloride, cetrimide, cetrimonium bromide, cetylpyridium chloride, glycidyl trimethyl, stealkonium chloride, ammonium laureth sulphate, ammonium luryl sulphate, and combinations thereof.

25. (New) The composition of claim 16 wherein the cation chloride salt is present in an amount of from about 0.5% to about 4% by weight of said composition.

26. (New) The composition of claim 16 wherein the quaternary ammonium is present in an amount from about 10% to about 30% by weight of said composition.

27. (New) The composition of claim 16 wherein the pH is greater than about 3.0 and less than about 7.0.

28. (New) The composition of claim 16 wherein the pH is greater than about 4.0 and less than about 6.0.

29. (New) A method of treating a skin disorder, the method comprising:  
administering to an area of skin disorder a composition comprising:  
vanilla extract in an amount in an amount less than 2% by weight of the composition;  
quaternary ammonium in an amount from about 0.001% to about 40% by weight of the composition;

a cation chloride salt in an amount from about 0.001% to about 10% by weight of the composition.
